The native title determination applications have the Federal Court matter number: VID6001/00, VID6003/99 and VID6043/98.

14.10 The Parties to the dispute agree that the arbitrator’s decision is binding upon them and to accept and to comply in good faith with the arbitrator’s decision.

Rights to other relief

14.11 Except in circumstances where a binding arbitrated decision has been given under sub-clause 14.10, the Parties agree that any dispute resolution process undertaken by them in accordance with this clause 14 shall be without prejudice to the Parties’ rights to apply for any other order, relief or remedy (including injunctive or declaratory relief) against each other and any other person that may be available to them at law or in equity.

15. Confidentiality

15.1 The following information is confidential information:

15.1.1 Information provided by a Party to the other Party which the first mentioned Party requests be treated as confidential;

15.1.2 Information given to the Miner concerning any Aboriginal place*, Aboriginal object or Aboriginal human remains* that is expressly identified by the Cultural Heritage Co-ordinator* as confidential information;

15.2 The Parties agree not to disclose any of the confidential information referred to in sub-clause 15.1 except:

15.2.1 to the officers, employees, members, directors, servants, agents, contractors and sub-contractors of the Parties whose duties require such disclosure;

15.2.2 to the Parties’ accountants, legal advisers, auditors or other professional advisers;
15.2.3 to the extent necessary to comply with any applicable laws and the Rules of the Australian Stock Exchange;

15.2.4 where disclosure is necessary in performing obligations or enforcing rights under the ILUA;

15.2.5 to the extent that such information is already part of the public domain otherwise than by breach of this clause;

15.2.6 with the prior written approval of the other Parties.

15.3 Each Party shall take all steps reasonably necessary to ensure that the confidential information referred to in sub-clause 15.1 is known only to such persons as may reasonably require knowledge thereof in the course of their duties or functions and, notwithstanding the provisions of sub-clause 16.2, each Party shall, to the extent permitted by law, require any person to whom it intends to disclose such information (who is not under a statutory, professional or contractual duty to keep such information or data confidential) to give an undertaking to keep such information confidential.

15.4 If the rest of the ILUA is terminated:

15.4.1 the Native Title Signatories and the other members of the Native Title Group shall, (subject to sub-clause 15.2) continue to treat as confidential all categories of information obtained by them under the ILUA or in the course of small scale mining that are requested to be kept confidential by the Miner; and

15.4.2 the Miner shall continue to treat as confidential information obtained by it under the ILUA or in the course of carrying out small scale mining with respect to the locations of, and traditions associated with, Aboriginal places and Aboriginal objects that have been specified as confidential under sub-clause 15.1.2. If requested by the Dja Dja Wurrung Clans Aboriginal Corporation, the Miner shall deliver all such information to the Dja Dja Wurrung Clans Aboriginal Corporation (to the extent it is capable of delivery) as soon as it is no longer required for the purposes of small scale mining.
Covenants

16.1 Without limiting any other express or implied obligation under the ILUA, the Native Title Signatories covenant with the other Parties not to take any action which:

16.1.1 challenges or disputes, or has the effect of challenging or disputing the validity of the ILUA, or that the ILUA constitutes an Indigenous Land Use Agreement under section 24CA of the NTA;

16.1.2 challenges or disputes, or has the effect of challenging or disputing the validity of any Mining Licence validly granted in accordance with the MRSDA, or any other action validly taken by the State in authorising small scale mining under the ILUA; and/or

16.1.3 unlawfully affects any activity required or authorised by the Mining Licence, the MRSDA or any other applicable laws.

16.2 The Native Title Signatories shall not be liable for any unintentional breach of the covenants referred to in sub-clause 16.1. The onus of proving that any such breach was unintentional shall rest on the Native Title Signatory who is alleged to have breached the covenant.

17. Assignment

17.1 Subject to sub-clause 17.2 and any applicable laws, the Miner may at its absolute discretion, assign, transfer or novate the whole or any part of its interests in or obligations under (as the case may be) the Mining Licence or the ILUA.

17.2 The Miner must not assign, transfer, or novate any of its interests or obligations referred to in sub-clause 18.1, except to a person who agrees to execute a deed under which it is bound by the ILUA, as if it were a Party to it. Where such a deed is executed, the Miner will provide a copy of that deed to the Dja Dja Wurrung Clans Aboriginal Corporation and PMAV.

17.3 In the event that:

17.3.1 the Federal Court makes a determination that native title exists over the ILUA area, and is held by the Native Title Group; and
17.3.2 a registered native title body corporate* is created by an entry in the National Native Title Register* (under section 197 and section 193(2)(d)(iii) of the NTA) of the details of any prescribed body corporate that holds the native title on trust or that is determined under section 57 in relation to the native title;

the Native Title Signatories shall use their best endeavours to assign the ILUA to that registered native title body corporate, provided that the registered native title body corporate executes a deed under which it is bound by the ILUA as if it were a Party to it.

17.4 Subject to sub-clause 17.5 and any applicable laws, PMAV may at its absolute discretion, assign, transfer or novate all of its rights and obligations under the ILUA.

17.5 PMAV must not assign, transfer, or novate any of its rights and obligations referred to in sub-clause 17.4, except to a person who agrees to execute a deed under which it is bound by the ILUA, as if it were a party to it. Where such a deed is executed, PMAV will provide a copy of that deed to the Dja Dja Wurrung Clans Aboriginal Corporation.

18. Force Majeure

18.1 If a Party is unable, as a result of a Force Majeure Event*, to wholly or in part perform any obligation under the ILUA for a period of greater than 12 months, that Party must give notice to the other Parties of that Force Majeure Event outlining reasonably full particulars of the Force Majeure Event in which case the obligation is suspended for the duration of the Force Majeure Event.

19. Variation

19.1 The ILUA can only be varied by the written agreement of the Native Title Signatories and PMAV.

20. Severance

20.1 If a clause or part of a clause can be read in a way that makes it illegal, unenforceable or invalid, but can also be read in a way that makes it legal, enforceable and valid, it must be read in the latter way.
20.2 If any clause or part of a clause is illegal, unenforceable or invalid, that clause or part is to be treated as removed from the ILUA, but the rest of the ILUA is not affected.

21. Entire Agreement

21.1 The ILUA supersedes any prior representation, understanding or arrangements made by the Parties in relation to its subject matter, whether orally or in writing.

22. Governing Law

22.1 The ILUA is governed by and is to be construed in accordance with the laws of the Commonwealth of Australia and the State of Victoria.

22.2 The Parties submit to the non-exclusive jurisdiction of the courts of Victoria and any other courts competent to hear appeals from those courts.

22.3 Any proceedings commenced relating to the ILUA will be issued in the State of Victoria.

23. Counterparts

23.1 The ILUA is properly executed if each Party executes either the ILUA, or identical counterpart Agreements. In the latter case, the ILUA takes effect when the separately executed Agreements are exchanged between the Parties. All counterparts taken together will constitute one instrument.

24. Liability

24.1 The Native Title Signatories agree that all liabilities and obligations imposed upon them and other members of the Native Title Group by the ILUA are imposed upon them and each member of the Native Title Group jointly and severally.

24.2 The Miner agrees that all liabilities and obligations imposed upon it by the ILUA are imposed upon it jointly and severally.

24.3 PMAV will comply with all liabilities and obligations imposed on it by the ILUA.
25. **Waiver**

25.1 The failure of a Party at any time to require performance of any obligation under the ILUA is not a waiver of that Party's right:

25.1.1 to insist on performance of, or to claim damages for breach of, that obligation unless that Party acknowledges in writing that the failure is a waiver; and

25.1.2 at any other time to require performance of that or any other obligation under the ILUA.

26. **Independent Legal Advice**

26.1 The Parties acknowledge that they have had the benefit of independent legal advice with respect to all aspects of the ILUA.

27. **Relationship**

27.1 The ILUA does not create a relationship of employment, agency or partnership between the Parties.

28. **Further co-operation**

28.1 The Parties must do anything (including executing any agreement) which another Party reasonably requires of them in order to give full effect to the ILUA and the transactions it contemplates.

29. **Agreement to benefit and bind successors**

29.1 The ILUA continues for the benefit of, and binds, a successor in title of a Party, including a person to whom a Party's rights and obligations are assigned, transferred or novated in accordance with the ILUA.

30. **Costs**

30.1 Unless otherwise agreed by the Parties, each Party will pay their own legal costs and other expenses for and incidental to the preparation, negotiation, completion and registration of the ILUA.
GST Definitions

31.1 For the purposes of this clause 32:

"GST" has the same meaning given to that term in the GST Act;

"GST Act" means the A New Tax System (Goods and Services Tax) Act 1999 (Cth) as amended;

"GST Law" means the GST Law as defined in the GST Act and includes any Statute of the Commonwealth of Australia and/or the State that imposes or deals with GST;

In addition to the above, expressions set out in italics in this clause 32 have the same meaning as those expressions in the GST Act.

Liability for GST

31.2 Where a party makes a taxable supply under this ILUA for consideration:

31.2.1 The consideration for that supply represents the value of the taxable supply and does not include GST; and

31.2.2 The Party liable to pay the consideration for the taxable supply will also pay the Party making the supply, at the same time and in the same manner as the consideration payable by that party, the amount of GST payable in respect of the taxable supply.

31.2.3 If either Party (the ‘first Party’) has a right under the ILUA to be reimbursed or indemnified by the other Party (the ‘second Party’) for any cost or expense incurred by the first Party under the ILUA, the first Party will not be entitled to be reimbursed or indemnified by the second Party for that component of a cost or expense for which the first Party can claim an input tax credit.

Tax Invoices
31.3 A party’s right to payment of GST under this clause is subject to a valid tax invoice being delivered to the recipient of the taxable supply. The tax issue must be issued at the time of payment.

32. Notices

32.1 Subject to the ILUA, any notice, request, consent, proposal, or other communication (‘notice, etc.’) must be in writing and signed by the Party giving it. A notice, etc. is only given or made if it is:

32.1.1 delivered or posted to that Party at the address in Schedule F (or such other address as notified and set out in Schedule 6 from time to time); or

32.1.2 faxed to that Party at the fax number in Schedule 6 (or such other address as notified and set out in Schedule 6 from time to time).

32.2 Parties must notify each other and the State within 7 days of any change of address or fax details.

32.3 A notice, etc. is to be treated as given or made at the following time:

32.3.1 If it is delivered, when it is left at the relevant address;

32.3.2 If it is sent by post, 2 business days after it is posted;

32.3.3 If it is sent by fax, as soon as the sender receives from the sender’s fax machine a report of an error free transmission to the correct fax number.

If a notice, etc is delivered, or an error free transmission report in relation to it is received by a Party after business hours*, it will be treated as having been given or made at the beginning of normal business hours on the next business day.

33. Provisions of ILUA not conditions of grant

33.1 The Parties agree that the provisions of the ILUA (including the Land Use Conditions) are not conditions of the grant of the Mining Licence under the MRSDA or any other applicable laws.

Note

Data Reference and source

- Agreement boundary data compiled by National Native Title Tribunal based on data sourced from Dept of Sustainability and Environment (Vic).
- Rivers based on cadastral data sourced from Public Sector Mapping Agency (May 2008).

Reference datum

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Schedule 2: Land Use Conditions

1.1 Subject to Item 1.2 of this Schedule, the Miner shall pay the following benefits to a trust account that is established on behalf of all the members of the Native Title Group by the Dja Dja Wurrung Clans Aboriginal Corporation:

1.1.1 A one-off Mining Licence access fee of $2,500.00 (plus GST) for a Mining Licence granted for a term of 5 years or $500.00 (plus GST) for each year the Mining Licence is granted for;

1.1.2 The benefits referred to in clause 1.1.1 are to be paid in full by the Miner before the grant of the Mining Licence by the State;

1.1.3 The Dja Dja Wurrung Clans Aboriginal Corporation undertakes to refund in full (less a 10% administration fee) the benefits referred to in clause 1.1.1 in the event that the State does not grant the Mining Licence to the Miner;

1.1.4 An upfront fee of $1,250 (plus GST) for any subsequent renewal of the Mining Licence for a term of not less than 5 years or an upfront fee of $250.00 (plus GST) for each year a renewal of the Mining Licence is granted.

1.2 The benefits shall be increased by CPI* annually on the anniversary date of the registration of the ILUA by the National Native Title Tribunal* (at the CPI rate that exists at that anniversary date).

2. Access to the ILUA area:

2.1 Subject to the Miner's

2.1.1 Work Plan*;

2.1.2 Safety and security obligations;

2.1.3 Access requirements to the Mining Licence area; and
2.1.4 Rights of small scale mining under the Mining Licence, any required consent*, and applicable laws:

The Miner shall not hinder and will minimise interference with the entry, occupation and use of any part of the Mining Licence area by members of the Native Title Group.

3. Environmental Management

3.1 The Miner agrees to conduct small scale mining within the ILUA area in accordance with the Guidelines* and applicable laws.

4. Information and Communication

4.1 The Miner shall promptly provide to the Dja Dja Wurrung Clans Aboriginal Corporation:

4.1.1 A copy of each Mining Licence following its grant;

4.1.2 copies of any consent in relation to small scale mining and/or

4.1.3 Information reasonably requested by the Native Title Signatories which relates to small scale mining and to the Miner’s obligations under the ILUA.
Schedule 3: Land Use Conditions (Cultural Heritage Management Procedures)

1 Interpretation

1.1 Nothing in this Schedule 3 replaces or modifies or is intended to replace or modify any of the Parties’ obligations, rights or procedures under the Heritage Act*.

1.2 The provisions of the Heritage Act prevail over this Schedule 3 to the extent of any inconsistency.

2 Notification

2.1 In the event that the Miner is required to take any action under the Heritage Act, the Miner will notify the Cultural Heritage Co-ordinator and the Monitor before taking that action.

3 Cultural Heritage Co-ordinator

3.1 The Dja Dja Wurrung Clans Aboriginal Corporation has appointed the Cultural Heritage Co-ordinator to act on their behalf with respect to cultural heritage management in the ILUA area and to liaise with any other relevant body or person under the Heritage Act.

3.2 The Dja Dja Wurrung Clans Aboriginal Corporation has arranged for the Cultural Heritage Co-ordinator to:

3.2.1 Nominate the Monitor and provide the Miner with the address and contact details of the Monitor;

3.2.2 Organise and co-ordinate the activities of the Monitor; and

3.2.3 Process and invoice to the Miner any payments to be made to the Monitor under Item 12 of this Schedule.

4 Monitor and Cultural Heritage Consultant*

4.1 The Native Title Signatories agree that the Monitor nominated by the Cultural Heritage Co-ordinator is the appropriate Aboriginal person for the Miner to deal with, with respect to the procedures in this Schedule 3.
If the Monitor and the Miner agree, the Miner will engage an appropriately qualified cultural heritage consultant* approved by the Monitor, the Dja Dja Wurrung Clans Aboriginal Corporation through the Cultural Heritage Co-ordinator and the Miner, to assist the Monitor and the Miner to meet their obligations under the Heritage Act and this Schedule 3.

4.3 In the event that the Monitor or the cultural heritage consultant is not available when required, then the Dja Dja Wurrung Clans Aboriginal Corporation, through the Cultural Heritage Co-ordinator, will nominate appropriate replacements (with the replacement cultural heritage consultant to be agreed between the Miner and the Cultural Heritage Co-ordinator).

4.3.1 The Native Title Signatories agree that, in the event that the Monitor is not available to undertake his/her duties under this Schedule 3 for any reason, the replacement Monitor nominated under this item will be available immediately by way of replacement.

5 Consultations about the Work Plan

5.1 Subject to item 5.2, the Applicant will provide the Monitor with duplicate copies of the draft Work Plan.

5.2 The Applicant is not obliged to provide the Monitor with a draft Work Plan:

5.2.1 If the works to be done pursuant to the Mining Licence in the Licence area will only involve non-ground disturbing activity. In this event items 5.3-5.8 do not apply.

Inspections by Monitor of work sites proposed under the draft Work Plan

5.3 Within 28 days of the draft Work Plan being provided to the Monitor, or such other timeframe as may be agreed between the Parties, the Cultural Heritage Co-ordinator will arrange for the Monitor to conduct an inspection of the work sites proposed on the Mining Licence area under the draft Work Plan.

5.4 The Monitor may ask (giving no less than 72 hours notice to the Applicant of the time and place of the inspections) that an appropriately qualified and authorised representative of the Miner attend the item 5.3 inspections to:
5.4.1 Explain and clarify the details of the draft Work Plan; and

5.4.2 If required, precisely locate (eg by pegging) the work sites proposed under the draft Work Plan.

5.5 The Monitor’s inspection of the work sites proposed on the Mining Licence area is a one-off inspection taking a maximum of one day (eight hours duration in all).

5.6 The Parties agree that the Monitor’s inspection of the work sites under item 5.3 will take place before the grant of the Mining Licence.

5.7 Subject to item 5.8, once the Monitor has completed the item 5.3 inspections, s/he will immediately complete a Report* that shall be jointly signed in duplicate by the Monitor and the Applicant, with a signed copy of the Report then given to the Cultural Heritage Co-ordinator and the Applicant by the Monitor.

5.7.1 The Applicant will forward a copy of the Report to the State with the executed Deed of Assumption.

5.8 If the item 5.3 inspections determine that the proposed works under the Work Plan affect any Aboriginal place, Aboriginal object or Aboriginal human remains, the Monitor will immediately notify the Applicant, who will communicate with the Monitor with a view to reaching agreement within 14 days of being so notified as to the alteration of the proposed works to the reasonable satisfaction of the Monitor.

5.9 If agreement is reached under item 5.8, then a new Work Plan, incorporating any alterations that have been made as a result of agreement, will be provided to the Monitor.

5.9.1 If the Applicant cannot agree to the requested alteration in its entirety or at all (because of significantly greater cost or inconvenience) then, subject to the Heritage Act, the obtaining of a work authority under the MRSDA, and to any other applicable laws, the Miner will conduct its Mining Licence works where practicable taking into consideration the Monitor’s requests for alterations.

5.10 The Parties agree that to the extent that the item 5.3 inspections involve the engagement of a cultural heritage consultant to assist the Monitor by undertaking an archaeological survey, the cultural heritage consultant will if required under
section 36(1) of the AHA apply to the Secretary of the Department of Planning & Community Development for a Cultural Heritage Permit.

5.11 The Parties acknowledge that in order to comply with the Heritage Act, the Miner may need to consult with other people or bodies (including AAV) who are not members of the Native Title Group.

5.12 If the Miner proposes to make a variation to the Work Plan (whether by formal variation under the MRSDA or otherwise) which would substantially or materially vary an activity which has been approved by the Monitors under this Schedule A:

5.12.1 the Miner will provide a new Work Plan to the Monitors under item 5.1; and

5.12.2 the provisions of this item 5 shall then be applied to the new Work Plan.

6 Monitoring of the Licence Works

6.1 The Miner will notify the Cultural Heritage Co-ordinator at least 7 days prior to commencing any new works to be done pursuant to the Mining Licence ("Mining Works") except:

6.1.1 where the Mining Works only involve non-ground disturbing activity; or

6.1.2 where the Mining Works are not conducted on Crown land.

6.2 If required the Cultural Heritage Co-ordinator shall appoint the Monitor to monitor Mining Works.

6.3 If the Monitor is required to monitor the Mining Works, the Miner shall induct them as to its safety procedures. Subject to item 6.4, the Monitor will then be entitled to be present at the Mining Works.

6.4 Any Monitor present during the Mining Works will at all times comply with the work practices and safety requirements of the Miner and the MRSDA (and other applicable laws) and follow all instructions of the Miner, its employees and contractors.

7 Discovery of Aboriginal Objects*
7.1 If an object suspected to be an Aboriginal object is discovered by the Miner, its employees or contractors (except material suspected to be human remains – see item 8 below), the following provisions will apply:

7.2 As required under s24(2) of the Heritage Act, the discovery will be promptly reported or otherwise notified to the Secretary of the Department of Planning & Community Development and/or any other relevant government authority;

7.3 All Mining Works at the place where the object was discovered and within that immediate area will stop immediately and:

7.3.1 The Monitor and the Cultural Heritage Co-ordinator will be promptly notified, if they are not present at the time of the discovery;

7.3.2 The procedures set out in item 7.4 will be followed;

7.4 Subject to any applicable laws, any Cultural Heritage Management Plan under the Heritage Act and any lawful direction by AAV and/or any other relevant government authority:

7.4.1 The Monitor shall take immediate steps to determine whether the object is an Aboriginal object, and its significance and immediately inform the Miner, AAV, and/or any other relevant government authority as to their opinion;

7.4.2 If the Monitor’s opinion is that the object may be or is an Aboriginal object, then unless there is a material risk that the object may be damaged, the Mining Works may recommence and continue one hundred metres distant from the object (or less than one hundred metres if agreed by the Monitor). If objects which may be Aboriginal objects are also encountered at the site proposed for the relocated works, this recommencement procedure will be repeated until no such objects are encountered;

7.4.3 If the Monitor’s opinion is that the object may be or is an Aboriginal object, the appropriate course of action will be determined by the Monitor in consultation with the Miner, and/or any other relevant government body as appropriate under the Heritage Act. This may consist of recording the location of the object or removal of the object, or protection of the object as appropriate; and
7.4.4 subject to the Heritage Act and other applicable laws, where agreement as to an appropriate course of action cannot be reached between the Monitor and the Miner within 72 hours of the time of discovery, or such longer period as the Monitor and the Miner may agree, the dispute shall be resolved in accordance with the terms of clause 13 of the Agreement [Resolving Disputes].

8 Discovery of Human Remains

8.1 If during Mining Works, an object suspected to be human remains is discovered:

8.1.1 the Miner will promptly report the discovery to Victoria Police;

8.1.2 all Mining Works at the place where the object was discovered and within that immediate area will stop immediately and:

8.1.2.1 the Monitor and the Cultural Heritage Co-ordinator will be promptly notified;

8.1.2.2 the procedures set out in item 8.1.3 and 8.1.4 will be followed;

8.1.3 Victoria Police will be permitted to examine the object to determine whether the object is human remains and, if so, whether the remains may be Aboriginal human remains; and

8.1.4 subject to the consent of Victoria Police, the Monitor may also be permitted to examine the object.

8.2 If:

8.2.1 Victoria Police consider that the object is not human remains; and

8.2.2 the object is not an Aboriginal object;

then Mining Works may immediately recommence. If however, the object is not human remains but is or is suspected to be an Aboriginal object then the procedures set out in item 7 of this Schedule 3 will be followed.

8.3 If Victoria Police consider that the object is human remains which are or are suspected to be Aboriginal human remains, the Miner will immediately:
8.3.1 report the discovery to the Secretary of the Department of Planning &
Community Development under s17(3) of the AHA. The Miner shall
suspend all Mining Works to the extent necessary to protect the remains,
pending a direction from the Secretary of the Department of Planning &
Community Development as to any action to be taken in relation to the
remains under section 18 of the AHA;

8.3.2 notify the Monitor (if not already notified) as to the Miner's report in
item 8.3.1.

8.4 The Miner will:

8.4.1 comply with its obligations under the Heritage Act; and
