# Mining and Sustainable Development

Current Issues

Edited by **Sumit. K. Lodhia**, University of South Australia Business School, Australia

*Series: Routledge Studies of the Extractive Industries and Sustainable Development*

Mining is a transformative activity which has numerous economic, social and environmental impacts. This book addresses the changing role of minerals in society and how mining can be made more sustainable. It covers the social acceptance of mining, critical and contemporary debates such as mining and indigenous peoples and transit worker accommodation, corporate matters such as sustainability reporting and taxation, and sustainability solutions through an emphasis on renewable energy and shared-used infrastructure.
