

## Responsible investment in agriculture and food systems

### Course: Creating an enabling environment for responsible investment in agriculture and food systems

©FAO/Sean Gallagher

This course illustrates the importance of responsible investment in agriculture and food systems for sustainable development, as well as the scope and content of the CFS Principles for Responsible Investment in Agriculture and Food Systems (CFS-RAI). It also analyses the features of an institutional, policy, legal and regulatory environment that fosters responsible investment, and it identifies the main actors who play a role in the process of creating such an enabling environment.

3 hours

Available in English, French and Spanish

### You will learn about

- Benefits of responsible investment on food security and nutrition, as well as on the economy, the society and the environment
- The Principles for Responsible Investment in Agriculture and Food Systems (CFS-RAI)
- The main components of an “enabling environment” for responsible investment in agriculture and food systems
- The roles and responsibilities of key stakeholders in creating an enabling environment

## Who is the course for?

This course is intended for:

- Policy makers and parliamentarians
- Government technical staff
- Small-scale producer organizations
- Civil society organizations
